Dear Mr. Hanna:

Re: North Cavalcade Site

It is my understanding that a meeting was held June 28, 1983 between you and members of my staff to discuss the environmental contamination of your property from an abandoned creosote operation.

The outcome of this meeting was that by July 29, 1983 you would secure an environmental consultant to evaluate the site. Once the site has been evaluated, the remedial action plan would be submitted to the Department for our review. Since the entire Cavalcade site is presently being ranked for federal funding under the "Superfund" program, the Department requests that you immediately submit a response confirming these agreements.

The Department appreciates your cooperation in this matter and encourages you to proceed in an expeditious manner. Please have your consultant contact Mr. Michael Dick at 512/475-5516 or Mr. Fred Dalbey at 713/479-5981 by July 29, 1983.

Sincerely,

Gary D. Schroeder, P.E., Chief
Solid Waste and Spill Response Section
